Windrush

SES Group took pride in the protection and safety of this exceptional piece of art by Basil Watson, at Waterloo Station.

This monument pays tribute to the thousands of people who arrived in the UK for Caribbean Countries between 1948 and 1971 to help rebuild Britain after the 2nd World War. This is a big part of these countries' heritage which makes us proud to be involved in the protection of monuments like this, to ensure they get the safety and recognition they deserve.

Elton John

SES Group are incredibly proud to have our team supporting Elton John on his Farewell Yellow Brick Road tour including his amazing performance at Hyde Park.

We are so pleased to have had the opportunity to be part of this and to provide support to ensure the events run smoothly.

Summer Working

Exposure to ultraviolet radiation from the sun can cause skin damage, including sunburn, blistering, skin aging and skin cancer.

Skin cancer is the most common form of cancer in the UK, with over 40,000 new cases diagnosed every year.

1. A tan is NOT healthy - it is a sign that the sun has already damaged your skin.
2. Keep your top on; clothing forms a barrier to the sun's harmful rays - especially tight woven fabrics.
3. Stay in the shade whenever possible, during breaks and especially at lunchtime when the sun is at its hottest.
4. Drink plenty of water to avoid dehydration.
5. Check your skin regularly for any unusual moles or spots.
6. See a doctor promptly if you find anything that is changing in shape, size, colour, itching or bleeding.
7. People with pale skin are most at risk of skin damage, especially those with fair or red hair, lots of freckles or those with a family history of skin cancer.
8. When at work, a t-shirt as a minimum must be worn under your Hi-Vis vest, no bare chests.
9. Long Trousers must be worn—no shorts or short trousers.
